hm10 FLIX

hm10 FLIX

Our first collaboration with leading Dutch designer Ineke Hans, FLIX/hm10 is a playful system that works for both formal and informal spaces, offering multiple and single seating options.

Ineke considered what we require from our working environments, and worked to develop furniture that allows activity, is light and flexible, and that understands people with their varied and changing needs. Privacy is important but must be balanced with the necessity for communication and interaction. With a minimum of components it is possible to create a range of configurations for office, hospitality and co-working environments.

FLIX presents many opportunities to play with materials, fabric colours and textures.

FLIX can be specified with three back heights, and four side panel heights, and as a chair, 2- and 3-seat sofa. Panels can be combined on individual pieces, and the sofas can have the seats reversed for a truly flexible seating solution.

Cushions and panels can be covered in different colours of fabrics - please contact us to discuss your requirements. Power and charging sockets can be fitted to the underside of the seat.

Ineke Hans (NL) set up her studio in the Netherlands in 1998 after studying Product Design in The Netherlands and graduating with an MA in Furniture Design from the Royal College of Art in London.

In 2015 Ineke moved back to the UK to set up studio-salon: design studio & research salon. From London she works with her studio in Holland on design projects for leading international design manufacturers and with the salon she explores 'the future of furniture design' and 'the changing position of the designer'. FLIX is her first collection for Hitch Mylius.

hm10w 3-seat sofa, mid back, 10g high back/side chair & 10y3 table

hm10a high back/side swivel chair

hm10f low arm chair with 4-leg frame
